## Board of Governors

**SUBMITTED BY:** Lane Trotter, President  
**DATE:** September 18, 2023  
**TOPIC:** President's Report: June 13-September 18, 2023

---

**Note: A verbal report will be provided for events from September 7 through 18, due to the publishing timeline of the Board meeting package.**

### **1. Meetings with External Community**

I had the honour of attending several meetings and social events with our colleagues visiting from Miriam College in June. The time was extremely productive and benefited both intuitions through a more in-depth understanding of our partnership and the people involved. I also attended a meeting between our Ministry and the Philippines Commission on Higher Education to discuss how BC and the Philippines can collaborate.

On July 21<sup>st</sup> Geoff Wilmshurst, VP Partnerships and I attended the BC-India Business Network (BC-IBN) Education and Skills Summit in Vancouver. I was on a panel looking at how collaboration can further our partnerships with the India community.

On August 23<sup>rd</sup> I participated in the External Review Panel Visit for Camosun's proposed BBA in Socially Responsible Management with Dr. Breda Kenny of Munster Technological University, Mr. David Wells of Vancouver Community College and Dr. Robert Mittelman of Royal Roads University.

### **2. Meetings with Internal Community**

On July 7<sup>th</sup> I thoroughly enjoyed the opportunity to meet with a group of Business 150 students to be interviewed for their class project on leadership styles. After completing the assignment, the student contacted me to share the instructor's comments which included: "Wonderful work! I thoroughly enjoyed reading your paper and reading about your learning of the concepts we discussed in class and within the text. Your team's approach to this assignment was creative, appropriate, thorough, and very informative! Great job, everyone!"

The week of August 28 through 31 was filled with visits to our Schools welcome back events. These various events were a wonderful opportunity to connect with faculty and staff and celebrate the good work which we do together.

### **3. Special Events**

On June 14<sup>th</sup> and 15<sup>th</sup> I attended the college's convocation ceremonies at the PISE gymnasium. As always, these events were a wonderful celebration of our students.

On August 29<sup>th</sup> I attended the employee BBQ which was held in the Wilna Thomas Building and patio. There was an excellent turnout (despite the weather being the first grey day in weeks!) with food provided by Aramark and music provided by students in the Conservatory of Music. It was a happy, relaxed event and a great opportunity for faculty and staff to connect before the fall term begins.

On September 5<sup>th</sup> and 6<sup>th</sup> I spent time at CamFest at both campuses. It was delightful to witness the energy and enthusiasm of our new and returning students.

## SEXUAL VIOLENCE 1.0 PURPOSE AND/OR RATIONALE

The purpose of the Sexual Violence Policy (the “Policy”) is to clearly communicate Camosun College’s (“Camosun” or the “College”) commitment to prevent and respond to sexual violence through:

- a) Establishing an environment where sexual violence is not tolerated
- b) Building and nurturing a culture of consent
- c) Identifying clear and consistent support for people who have been impacted by sexual violence
- d) Using clear, appropriate and fair processes for handling complaints of sexual violence
- e) Providing education, training and awareness to the College Community about prevention and response to sexual violence.

## 2.0 POLICY APPLICATION, SCOPE, AND/OR LIMITS

2.1 For the purposes of this Policy, the term “Sexual Violence” includes both sexual violence and sexual misconduct.

2.2 This Policy applies to Sexual Violence by or against a Student of Camosun. This Policy also applies to reports of Sexual Violence from former Students where the alleged violence occurred when the former Student was enrolled as a Student at the College. This Policy applies to Sexual Violence that is alleged to have occurred at any Camosun location, to have a real or substantial connection to the College, to have occurred during online College activities or at College-related functions, whether or not on College property. The College may accept Reports about sexual violence from individuals who

are applicants for admission to the College, in circumstances where the alleged sexual violence arose directly from the application process.

2.3 This Policy does not apply to employees who have experienced Sexual Violence in the workplace or who require support regarding Sexual Violence not involving Students. Such matters should be reported to the Executive Director of Human Resources. Students who are also employees of the College may make a Report under this Policy. The College may, however, determine that another process is more appropriate in the circumstances.

2.4 This Policy is not intended to supersede or interfere with collective agreements or applicable laws. This Policy is independent of any criminal or civil proceedings involving conduct that is the subject of a Report. The College will make a determination of a violation of this Policy based on the Balance of Probabilities. The processes under this Policy may be suspended in the event of a criminal investigation or proceeding.

## DEFINITIONS

**Balance of Probabilities:** Whether on the available evidence an event is more likely than not to have occurred.

**Complainant:** An individual who has disclosed Sexual Violence and made a Report to the College.

**Consent:** An active, direct, voluntary, unimpaired and conscious choice and agreement to engage in sexual activity. Consent requires the willing agreement to engage in specific sexual behaviour, and requires that an individual is able to freely choose whether to engage in such behaviour or not, communicated by affirmative words and/or actions indicating willingness to participate in that activity. In considering whether consent was given, the College recognizes the following statements:

- Silence or non-communication is not consent;
- An individual is incapable of giving consent if they are asleep, unconscious or otherwise unable to communicate;
- An individual who has been threatened or coerced is not consenting to engaging in sexual / sexualized activity;
- An individual who is drugged is unable to consent;
- An individual is unable to give consent if they are impaired by alcohol and/or drugs;
- Consent given in the past does not imply consent for future sexual activity; and

- Consent can be withdrawn at any time.

It is the responsibility of the initiator of sexual activity to obtain consent at all stages of sexual engagement.

**Disclosure:** For the purposes of this Policy, “Disclosure” means making known information pertaining to sexual violence as defined in this Policy. A disclosure will not result in an investigation by the College, unless there is an immediate or compelling threat to the safety of the individual or other members of the College community.

- Anonymous disclosures are accepted to facilitate access to information and supports. While the College will keep a record of the disclosure, it does not act on the information provided.

**Director:** Director of Student Affairs

**Employee:** Any person who works at the College or is contracted to work at/for the College, including, but not limited to: faculty, staff, sessional instructors, and security personnel.

**Investigation:** An information gathering process in response to a Report, as described in section 4.3 of this Policy. An Investigation is undertaken to determine whether Sexual Violence contrary to this Policy occurred. An Investigation may include, but is not limited to: witness interviews, collection and review of written statements, notes, logs, papers, digital and print records, and any other relevant material.

**Investigator:** An internal or external person who investigates a report of sexual violence.

**Natural Justice:** The principles of law that ensure fairness and due process to a Respondent. Natural Justice includes that the Respondent is made aware of the allegations against them and given a fair opportunity to respond, that the decision is based only on the evidence received and that the decisionmaker is unbiased;

**No-Contact Undertaking:** A promise to the College from a Respondent to refrain from contacting another person or persons.

**No Report:** When an individual who has experienced Sexual Violence chooses not make a Report to College or Report to Police. An individual who has experienced Sexual Violence and does not choose to make a Report is still able to access supports, including but not limited, to counseling and academic consideration supports.

**Outcome:** The determination following an Investigation, which may include a consequence. For a list of possible outcomes see [E-2.5](#).

**Procedural Fairness:** The principles of law concerned with the procedures used by a decision-maker, rather than the actual outcome reached. It includes an absence of bias, providing a Respondent with fair notice of the allegations and an investigation, and giving them a reasonable opportunity to respond.

**Report or Report to College:** A formal allegation of Sexual Violence against a person. A Report should include all relevant particulars, where available, including a record of times, dates, nature of any incidents, and names of potential witnesses. A Report may initiate an Investigation under section 4.3 of this Policy.

**Report to Police:** A complaint of Sexual Violence made by an individual to the police.

**Respondent:** An individual against whom a Report has been made.

**Sexual Violence :** A broad term encompassing unwanted or unwelcomed conduct of a sexual nature. This includes sexual violence and any sexual act that is committed, threatened or attempted against an individual without their consent, regardless of whether the act is physical or psychological in nature, including, without limitation: sexual assault, sexual harassment, sexual exploitation, stalking, stealthing, indecent exposure, voyeurism, and non-consensual posting of sexually explicit pictures or video or the threat or attempt to do any such act. Sexual Violence is an act wherein power and control are abused in a sexualized manner. **Sexual Violence is also sometimes referred to as Sexual Misconduct.**

Sexual Violence can include, but is not limited to:

- **Sexual Assault:** any form of sexual contact without consent.
- **Acquaintance sexual assault:** sexual contact without consent that is forced, manipulated, or coerced by a partner, friend or acquaintance.
- **Drug-facilitated sexual assault:** is the intentional use of alcohol and/or drugs by a person to control, over-power or subdue another for the purposes of Sexual Assault
- **Sexual Harassment:** unwanted remarks, behaviours, or communications of a sexual nature and/or a course of unwanted remarks, behaviours or communications based on gender – whether directed towards an individual or group – where an individual responsible for the remarks, behaviours or communications knows, or ought to reasonably know, that these are unwanted. It may include, but is not limited to:
  - Sexual solicitations, advances, remarks, suggestive comments and gestures (including songs and chants);

- the inappropriate display of sexually suggestive or sexualized pictures, posters, objects or graffiti;
  - non-consensual posting of explicit, sexual, or sexualized pictures or video on the Internet or otherwise;
  - sexual comments and slurs on any form of social media;
  - expressions of gender bias which may include remarks that discriminate, denigrate and/or create a poisoned learning environment; and
  - sexual or sexualized conduct that interferes with an individual's dignity or privacy such as voyeurism and exhibitionism.
- **Stalking** is a form of criminal harassment involving behaviours that generally occurs on more than one occasion and which collectively instil fear in an individual/group or threaten an individual's/group's safety or mental health. Stalking can also include threats of harm to an individual's/group's friends and/or family. These behaviours include, but are not limited to: non-consensual communications (e.g., face to face, phone, email, social media); threatening or obscene gestures; surveillance; sending unsolicited gifts; "creeping" via social media/cyber stalking; and uttering threats.
  - **Stealth** is a form of sexual assault in which a condom is removed by one partner during a sexual encounter without knowledge or consent of the other partner.

**Sexualize:** To make sexual; attribute sex or a sex role to.

**Student:**

An individual for whom the Office of the Registrar maintains an official student record and who: (a) is enrolled in or registered with a developmental, trades, or undergraduate program of the College, or (b) is between academic terms and has completed the immediately preceding term and is eligible for re-enrollment, or (c) is on approved educational leave or other approved leave status.

A person on leave under the Involuntary Health and Safety Leave of Absence Policy is not considered a Student for the purposes of this Policy.

Where a Report is made against a person who was a Student at the time of the alleged Sexual Violence, the College may, in its discretion, conduct an Investigation.

**Student Support Manager:** A designated College employee, usually within the Office of Student Support, who is responsible for: coordinating immediate supports for the individual making a Disclosure, notifying the individual making a Disclosure of their reporting options, receiving Report(s), and liaising with additional community support services where appropriate.

**Support Person:** A person who acts as an emotional resource throughout all steps in the process for either the Complainant or Respondent. A Support Person should be someone a student feels comfortable with knowing the details of the incident or situation, as well as someone a student feels comfortable with being present as they recount sometimes explicit details. A Support Person should be someone who can assist a student in understanding the College's policies and procedures and help a student identify questions that they may have throughout institutional processes. The Support Person does not act as an advocate for the student.

**Threat Assessment:** This Policy does not limit the College's right or obligation to implement threat assessment protocols to assess whether an individual's behaviour poses a risk to self or other members of the College community.

### 3.0 PRINCIPLES

- 3.1 Camosun is committed to providing an environment where Sexual Violence is not tolerated and where a culture of consent and respect is expected and demonstrated by all members of the College Community.
- 3.2 Camosun will continue to build strong, consultative and collaborative relationships with Students in supporting and implementing the College's prevention of and response to Sexual Violence.
- 3.3 Camosun will provide educational and training opportunities regarding Sexual Violence and will communicate related procedures and supports to build awareness and to encourage the reporting of any Sexual Violence, to prevent the occurrence of Sexual Violence and to build a culture of consent across the College Community.
- 3.4 Camosun acknowledges that an individual who experiences Sexual Violence is not to blame.
- 3.5 Camosun will treat those who make a Disclosure with compassion, dignity and respect.
- 3.6 Camosun will treat all Disclosures and Reports confidentially, and will respect the privacy of both Complainant and Respondent. Please see section 4.6 for additional information.
- 3.7 Camosun will make available timely supports for those who have been affected by Sexual Violence.
- 3.8 Camosun will provide individuals making Disclosures with information about reporting options available to them, both within and outside of the College.

3.9 Camosun will address Reports in a timely and fair way. Camosun will establish clear Procedures for making and responding to Reports. An Investigator appointed by Camosun will endeavor to complete an Investigation within 60 days of receipt of the Report. If during the course of the Investigation the Investigator believes this timeline cannot be met, the Investigator will inform the Complainant, the Respondent, and appropriate College representative as soon as possible.

3.10 Camosun will respond to all Reports in a manner that respects natural justice and procedural fairness and that reflects the Camosun's responsibility for the safety and security of the College Community.

3.11 Camosun supports the right of Complainants and Respondents to be informed of processes and decisions relating to Reports, Investigations and Outcomes, except where precluded by law.

3.12 Camosun acknowledges the systemic, gender-based nature of Sexual Violence. Camosun supports policies and processes that provide support for individuals and groups that are at greater risk for Sexual Violence, such as those that experience historic or ongoing oppression (e.g., colonization, racism, classism, sexism, homophobia, transphobia, ableism, etc.). Camosun commits to ongoing reflection and capacity building to ensure its policies, processes and practices support all students who experience Sexual Violence.

3.13 The Board of Governors will receive an annual report from the President on Camosun's implementation of this Policy.

The purpose of the Sexual Violence ~~and Misconduct~~-Policy (the "Policy") is to clearly communicate Camosun College's ("Camosun" or the "College") commitment to prevent and respond to sexual violence and sexual misconduct through:

- a) Establishing an environment where sexual violence and misconduct are not tolerated
- b) Building and nurturing a culture of consent
- c) Identifying clear and consistent support for people who have been impacted by sexual violence or misconduct
- d) Using clear, appropriate and fair processes for handling complaints of sexual violence and misconduct
- e) Providing education, training and awareness to the College Community about prevention and response to sexual violence and misconduct.

### 2.0 POLICY APPLICATION, SCOPE, AND/OR LIMITS

2.1 For the purposes of this Policy, the term "Sexual ~~Misconduct~~Violence" includes both sexual violence and sexual misconduct.

2.2 This Policy applies to Sexual ~~Misconduct~~Violence by or against a Student of Camosun. This Policy also applies to reports of Sexual ~~Misconduct~~Violence from former Students where the alleged

~~misconduct~~ ~~violence~~ occurred when the former Student ~~were~~ ~~was~~ enrolled as a Student at the College. This Policy applies to Sexual ~~Misconduct~~ ~~Violence~~ that is alleged to have occurred at any Camosun location, to have a real or substantial connection to the College, to have occurred during online College activities or at College-related functions, whether or not on College property. The College may accept Reports about sexual ~~misconduct~~ ~~violence~~ from individuals who are applicants for admission to the College, in circumstances where the alleged sexual ~~misconduct~~ ~~violence~~ arose directly from the application process.

~~or not on College property. The College may accept Reports about sexual misconduct from individuals who are applicants for admission to the College, in circumstances where the alleged sexual misconduct arose directly from the application process.~~

2.3 This Policy does not apply to employees who have experienced Sexual ~~Misconduct~~ ~~Violence~~ in the workplace or who require support regarding Sexual ~~Misconduct~~ ~~Violence~~ not involving Students. Such matters should be reported to the Executive Director of Human Resources. Students who are also employees of the College may make a Report under this Policy. The College may, however, determine that another process is more appropriate in the circumstances.

2.4 This Policy is not intended to supersede or interfere with collective agreements or applicable laws. This Policy is independent of any criminal or civil proceedings involving conduct that is the subject of a Report. The College will make a determination of a violation of this Policy based on the Balance of Probabilities. The processes under this Policy may be suspended in the event of a criminal investigation or proceeding.

## DEFINITIONS

**Balance of Probabilities:** Whether on the available evidence an event is more likely than not to have occurred.

**Complainant:** An individual who has disclosed Sexual ~~Misconduct~~ ~~Violence~~ and made a Report to the College.

**Consent:** An active, direct, voluntary, unimpaired and conscious choice and agreement to engage in sexual activity. Consent requires the willing agreement to engage in specific sexual behaviour, and requires that an individual is able to freely choose whether to engage in such behaviour or not, communicated by affirmative words and/or actions indicating willingness to participate in that activity. In considering whether consent was given, the College recognizes the following statements:

- Silence or non-communication is not consent;

- An individual is incapable of giving consent if they are asleep, unconscious or otherwise unable to communicate;
- An individual who has been threatened or coerced is not consenting to engaging in sexual / sexualized activity;
- An individual who is drugged is unable to consent;
- An individual is unable to give consent if they are impaired by alcohol and/or drugs;
- Consent given in the past does not imply consent for future sexual activity; and
- Consent can be withdrawn at any time.

It is the responsibility of the initiator of sexual activity to obtain consent at all stages of sexual engagement.

**Disclosure:** For the purposes of this Policy, “Disclosure” means making known information pertaining to sexual ~~misconduct~~violence as defined in this Policy. A disclosure will not result in an investigation by the College, unless there is an immediate or compelling threat to the safety of the individual or other members of the College community.

**Outcome:** The determination following an Investigation, which may include a consequence. For a list of possible outcomes see [E-2.5](#).

**Procedural Fairness:** The principles of law concerned with the procedures used by a decision-maker, rather than the actual outcome reached. It includes an absence of bias, providing a Respondent with fair notice of the allegations and an investigation, and giving them a reasonable opportunity to respond.

**Report or Report to College:** A formal allegation of Sexual MisconductViolence against a person. A Report should include all relevant particulars, where available, including a record of times, dates, nature of any incidents, and names of potential witnesses. **BRIEFING NOTE**  
**Board of Governors**

**SUBMITTED BY:** Deborah Huelscher, VP Administration & CFO  
**DATE:** September 18, 2023  
**TOPIC:** FIVE-YEAR CAPITAL PLAN

For Information:

For Decision: **X**

For Discussion:

**1. OVERVIEW**

Each year, the Ministry of Post-Secondary Education and Future Skills (PSFS) requires post-secondary institutions to prepare a list of major capital projects anticipated for the upcoming five-year period (from 2024/25 to 2028/29). The annual five-year plan requires Board approval prior to submission to government. Where government deadlines and Board meeting schedules do not coincide, institutions are able to submit plans ahead of Board approval. All projects within the plan must comply with government requirements, policies and procedures, including strategic alignment with:

- a) CleanBC Targets
- b) DRIPA Response
- c) Mass Timber Eligibility
- d) Community Benefits

Based upon previous Five-Year Capital Plans and assessing emerging needs at the College, the following priority projects (in order) are being put forward for consideration by PSFS:

<b>Project</b>	<b>Current Project Costs</b>	<b>Prior Year Project Costs</b>
1. Lansdowne Student Housing	\$218.9M	\$145.3M
2. Technology/Computer Expansion	\$ 21.4M	\$ 13.2M
3. Young Building Revitalization	\$180.0M	\$ 130.0M
4. CBA & Tech Roof & Envelope	\$ 15.3M	-
5. Liz Ashton Curtain Wall/Envelope	\$ 8.5M	-
6. Paved Linear Infrastructure	\$ 8.5M	-
7a. Interurban Student Housing	\$234.0M	\$ 150.0M
7b. Culinary Arts Centre/Campus Dining	\$ 36.2M	\$ 25.0M

Projects 4, 5, and 6 are new additions to the list while 1 (last year 1a & 1b) 2, 3 and 7a & 7b were included in the previous year's Five-Year Capital plan; no projects were removed from the list.

Prior year proposals have been updated to include changes identified throughout the year and reflect current cost estimates.

**2. OPTIONS**

- Approve motion as written or as modified.

**3. FINANCIAL IMPLICATIONS**

- Major capital projects are typically funded by Government with a potential co-contribution requirement (e.g., Camosun, Foundation, Federal Government).

**4. COMMUNICATION**

- Camosun submits the list to Government and notification of approved projects flows from Government.
- Campus Planning teams and Camosun Communications group work together and with Ministry Communications staff to message out information regarding capital project approvals.

**5. RECOMMENDATION AND OR MOTION**

THAT THE CAMOSUN COLLEGE BOARD OF GOVERNORS APPROVE SUBMISSION OF THE CAMOSUN COLLEGE FIVE-YEAR CAPITAL PLAN (2024/25 TO 2028/29) TO THE MINISTRY OF POST-SECONDARY EDUCATION AND FUTURE SKILLS.

### EXECUTIVE SUMMARY:

Camosun College is located in beautiful Victoria, British Columbia, with campuses on the Traditional Territories of the Lekwungen and W̱SÁNEĆ peoples. We acknowledge their welcome and graciousness to the students who seek knowledge here.

Guided by an inspiring strategic plan and administered by a professional community of talented faculty, staff and senior executives, Camosun enrolls over 14,000 learners each year, including over 1,200 Indigenous students and 2,100 International students.

Camosun College has two campuses; Lansdowne Campus is located at 3100 Foul Bay Road, and Interurban Campus is located at 4461 Interurban Road, together with our five satellite partnership centres. Between the two campuses, Camosun provides programs in the following areas: Centre for Indigenous Education and Community Connections (Eyē? Sqâ'lewen), Centre for Sport and Exercise Education, School of Access, School of Arts and Science, School of Business, School of Health and Human Services, the School of Trades and Technology and Continuing Education and Contract Training.

For the 2024/25 — 2028/29 period, Camosun College has identified seven major capital projects. The seven projects are pivotal to the growth of the college, and to support the institution's ability to continue to provide an outstanding educational experience for all students and faculty.

All seven projects identified align with Camosun College 2019 Campus Master Plan, which can be provided upon request.

## 5-Year Major Capital Plan

2024/25 – 2028/29

### LANSDOWNE STUDENT HOUSING:

Camosun College is a comprehensive institution serving more than 14,000 students at two campuses. The college offers certificate, diploma and degree programs preparing students for careers in business, technologies, health, human services, the arts, human services, trades and sport. The student body is diverse, with more than 1,700 international students, 1,500 Indigenous students from nations across Canada and one of the largest student cohorts of former youth-in-care.

The college is located in a challenging housing market. In January 2023, the Canadian Mortgage and Housing (CHMC) reported that the Greater Victoria region has one of lowest vacancy rates (1.5%) and highest average rental rates (\$1,699/month) in the country.

The region continues to experience rapid population growth. Population growth in the region is at 8%, with Langford the third-fastest-growing city in Canada. It's expected Camosun will continue to attract students to its career-focused programs.

A demand analysis for student housing, annual student-experience surveys and anecdotal evidence suggests student housing at Camosun will be welcomed by students, resulting in near-full occupancy. Student housing will be key in reducing barriers for marginalized students who are often most impacted by the lack of affordable housing in the region.

The lack of on-campus student housing is a barrier to Camosun achieving its strategic vision and educational goals. Without access to adequate housing, students will continue to face financial, travel and lifestyle burdens which could impede their chances of success. Student housing will contribute to vibrancy on campus, enlivening the campus is a benefit to all students.

This business case outlines Camosun's plan to construct an eight-storey building, accommodating 425 beds, at the Lansdowne campus. The first two floors will feature amenity and service spaces, including a wellness and counselling centre; a retail space with food services; an event space; and student housing administration. The housing towers will sit above the service and amenity floors.

## 5-Year Major Capital Plan

2024/25 – 2028/29

The new student housing building will be located centrally on the Lansdowne campus where the Isabel Dawson building currently sits. The Isabel Dawson building was completed in 1961 and has a Facility Condition Index (FCI) of 0.51. The building has a relatively small footprint with limited accessibility. For these reasons, it's recommended the building be demolished instead of attempting to expand and build above it.

The current occupants of the Isabel Dawson building (Registrar's Office, Facilities Services, Student Affairs, Camosun International, and Assessment Centre) will be relocated at the Lansdowne and Interurban campuses before the existing building is demolished.

## 5-Year Major Capital Plan

2024/25 – 2028/29

### MECHANICAL ENGINEERING & COMPUTER TECHNOLOGIES EXPANSION:

The Technologies building at Interurban Campus currently houses all of the college's engineering & computer technology programs. The available lab space is not able to meet the requirements for this rapidly growing program area. The construction of the Centre for Trades Education & Innovation (CTEI) in 2016 relocated a number of trades programs from the Jack White building to CTEI. The currently underutilized Trades bay in the Jack White building presents an opportunity to relocate the engineering technology lab spaces to a much larger and more appropriate space for students. The relocation of engineering technology labs to the Jack White building in turn presents an opportunity to repurpose vacated lab spaces in the Technologies building into much needed classroom and computer lab spaces in support of growing computer technologies and other programs.

## 5-Year Major Capital Plan

2024/25 – 2028/29

### YOUNG BUILDING REMEDIATION & EXPANSION:

The Young Building has been in continuous use for the past 105 years. During this time, mostly superficial renovations have taken place and building floorplans remain as they were at the turn of the century. Similarly, building envelope and infrastructure are well beyond their useful life, as validated by a Facility Condition Assessment conducted in December 2019.

Efforts were made in 2000 to address major structural and envelope issues; however, the repair work was not well executed – resulting in legal action by the College against the contractor. Engineering assessments in 2014 and 2016 subsequently confirmed complete building envelope failure has already taken place. As a result, envelope masonry is falling off the building, posing a serious risk to anyone entering and exiting the building. To protect staff and students, protective hoarding was erected around the Young Building in 2013 and remains in place today.

The Young Building Condition Assessment Report, completed by external consultants in 2020, paints a daunting picture of much needed structural, mechanical, electrical, architectural, and accessibility upgrades totaling more than \$70 million. Without immediate intervention, the building is at risk of being uninhabitable within the next decade.

Although the Young Building was not used by the Indian Residential School (IRS) system, it was designed as a proud symbol of colonialism. As a result, Indigenous Elders and students do not feel comfortable entering the Young Building, inhibiting one of the Province's and College's most important mandates: Supporting lasting reconciliation with Indigenous peoples. Camosun College serves the communities of southern Vancouver Island and the south Gulf Islands that are located in the traditional territories of the Lekwungen (Esquimalt and Songhees), Malahat, Pacheedaht, Scia'new, T'Sou-ke and WSÁNEĆ (Pauquachin, Tsartlip, Tsawout, Tseycum) peoples. The Indigenization of the Young Building is essential to reconciliation efforts.

## 5-Year Major Capital Plan

2024/25 – 2028/29

### CBA & TECH ROOF REPLACEMENT & ENVELOPE REPAIRS:

A Building Envelope Condition Assessment (BECA) for the CBA and Tech buildings has indicated several issues with the roof and skylight assemblies resulting in water ingress and associated damages. As a result, a full replacement of the aluminum roof assembly and skylights for both buildings is required.

## 5-Year Major Capital Plan

2024/25 - 2028/29

### LIZ ASHTON CAMPUS CENTRE CURTAIN WALL & ENVELOPE REPLACEMENT:

A Building Envelope Condition Assessment (BECA) for the Liz Ashton Campus Centre building has indicated several issues with the curtain wall, envelope, and dome skylight assemblies resulting in water ingress and associated damages. As a result, a full replacement of the is required.

## 5-Year Major Capital Plan

2024/25 – 2028/29

### Paved Linear Infrastructure Accessibility Improvements & Repairs:

An engineering consultant has completed an asset condition assessment of Camosun's paved linear infrastructure and identified \$6 million in deferred maintenance (poor condition) and in need of remediation. Numerous areas identified align with opportunities identified in Camosun's 2019 Campus Master Plan to improve both campuses accessibility and pedestrian connection. In addition, Markham St is also in need of repaving and presents an opportunity to widen and include bike lanes.

## 5-Year Major Capital Plan

2024/25 – 2028/29

### INTERURBAN STUDENT HOUSING:

Studies over the last decade have confirmed there is a significant demand for student housing at the College, and this demand persists today. In 2017/18, Camosun engaged the Scion Group to perform a market demand analysis. The analysis concluded that the College could accommodate from 335 to 504 beds at on each campus, or, if building at only one campus, from 637 to 956 beds. The College has determined that 350+/- beds is a practical estimate of what can reasonably and optimally fit on the recommended site and offer sufficient economies of scale, both from capital and operational perspectives, to make the project viable.

This project will provide 350+ beds for student housing at the Interurban campus with dedicated units for Trades' students. Like the Lansdowne Student Housing project, it will be the first on this campus and will require additional amenities to adequately support students living on Campus. As the Interurban campus is more rurally located than Lansdowne, additional considerations will need to be made for retail/ food services/ meal plans for students in residence.

The IU Student Housing project is planned for the Huber Hall site, which is currently home to the Culinary Program. Camosun requires funding to relocate the program or build around/ over the building. Camosun has identified the Huber Hall project as a 'part b' to this priority project and seeks to secure additional funding from the Province to complete the work.

## 5-Year Major Capital Plan

2024/25 - 2028/29

### CENTRE FOR CULINARY ARTS & CAMPUS DINING HALL:

The Huber Hall building on Interurban Campus was built in 1970 and functions primarily as a Culinary Arts training facility, campus main cafeteria and student space. It is 1894 gsm in size and also houses the Classroom Restaurant which operates as a fine dining restaurant for limited hours as part of the culinary arts training program. It consists of classrooms, labs, offices, kitchen, cafeteria, restaurant, student space and meeting/event space.

It is now over 50 years old and suffers from multiple deferred maintenance deficiencies with most building components having met or exceeded their life expectancy. In 2006 the cafeteria interior was renovated to improve the layout and upgrade interior finishes, however, the major building systems have never been upgraded. The kitchen and teaching lab areas are old-fashioned and functionally inefficient; equipment is outdated, worn and in need of replacement.

The IU Student Housing project is planned for the Huber Hall site, which is currently home to the Culinary Program. Camosun requires funding to relocate the program or build around/ over the building. Camosun has identified the Huber Hall project as a 'part b' to this priority project and seeks to secure additional funding from the Province to complete the work. The Renewed and expanded Huber Hall project will also address food services needs for the IU Student Housing project.

It is due on July 14, 2023. The report includes the college's goals, objectives and performance measure results preceded by contextual information to showcase the service we are providing to students and communities. The benchmarks are predetermined by the province. There is some missing data which the Ministry will give us. It will be included once it arrives. The theme is doing good work together which is part of our Strategic Plan. The student satisfaction with education results dropped since 2020/21, which is a Province-wide trend. The report covers April 1, 2022, to March 31, 2023.

**2. Indigenization at the Board Table**

Tanya Clarmont, Vice Chair, noted that Urban Indigenous populations do not live on their ancestral homelands. Urban Indigenous communities are a rich multicultural landscape. There are First Nations, Métis Nation and the Inuit. Reserves are surrounded by urban space. In Victoria, 85% of the Indigenous population are urban, so do not get support from their own nation's services. Nationally, the urban population is 65% and in BC 80% are urban. They left their territories for different reasons: empowered choice; circumstances of force; escape; and multigenerational colonial impacts.

The Friendship Centres are the largest network of urban Indigenous service providing agencies in Canada. They began in the 1950s. There are 120 in Canada and 25 in BC. Each is autonomous and responds to their own community's needs. Indigenous peoples are subdivided by false external jurisdictions: on and off reserve; status or non-status; and the four levels of government. Many from the 60s scoop do not know where they are from. First Nations and Métis Nation are resourced by government to participate in ongoing engagement and have dedicated people to liaise. There is no functioning urban Indigenous group. A network of urban voices at the grassroots, regional, provincial and national levels is needed.

### **3. Election of the Chair August 1, 2023, to July 31, 2024**

Deborah Huelscher, VP Administration and CFO, declared the election for the Chair of the Board of Governors open and called for nominations. At the May Board meeting Monty Bryant nominated Tanya Clarmont. No other nominations were put forward and Tanya Clarmont was acclaimed Chair for the period of August 1, 2023, to July 31, 2024.

### **4. Farewell to Departing Board Members**

Monty thanked Greg for his work on the Finance Committee, and thanked Kyle and Karen for their time and insights. Lane Trotter thanked Monty Bryant for all he did during his three years as Chair.

### **VIU's board of governors falls short in oversight of cybersecurity risk management**

VICTORIA – The Vancouver Island University Board of Governors needs to improve its oversight of the university's cybersecurity risk management practices, says a new independent audit report. The audit found deficiencies in the board's training, and their oversight of policy and strategies that are critical to protecting VIU's information systems and data.

"Cyber attacks are common and they're evolving," Auditor General Michael Pickup said. "B.C. university boards, including the VIU board, play a critical role in ensuring management is protecting their institutions from the rise of ransomware and other cyber threats."

University boards oversee cybersecurity risk management by holding university management accountable for identifying and mitigating risks.

The Office of the Auditor General found the VIU board has defined roles and responsibilities for risk management, and it sets expectations of VIU's management. However, the audit found three areas where the board hasn't provided oversight of VIU's cybersecurity risk management practices.

- First, the board hasn't adequately overseen the university's risk mitigation strategies. "Last year the VIU board only did a review at the end of the year. It should be done throughout the year – especially in a field that changes as quickly as IT," Pickup said.
- Second, the VIU board lacks training in cybersecurity risk management. VIU board members should receive cybersecurity risk management training when they join the board, and then annually.
- Third, the VIU board hadn't approved an updated risk management policy in over 10 years. "Outdated policies become ineffective, and weaken accountability," Pickup said.

The VIU board has accepted the report's four recommendations focused on cybersecurity risk mitigation and responses, board training and development, and keeping policies updated. "I'm pleased that the VIU board has committed to acting on our recommendations and I hope other university boards can learn from our report," Pickup said.

VIU stores the personal information of 12,000 students and 1,500 faculty and staff who are located at its campuses in Nanaimo, Duncan, Parksville, and Powell River. The 15-member board includes: eight members appointed by government; five members elected by faculty, staff and students; the university chancellor; and the university president.

The National Cyber Threat Assessment, issued by the Canadian Centre for Cyber Security, says ransomware is a persistent threat and Canada's critical infrastructure is increasingly at risk from cyber threats.

# Audit at a glance

## Why we did this audit

- Information technology is critical to post-secondary programs and the storage of the personal records of faculty, staff, and students. Cybersecurity attacks can lead to unauthorized access to sensitive information and damage to an institution's reputation.
- The Vancouver Island University (VIU) Board of Governors, like other university boards, is responsible for overseeing cybersecurity risk management and holding management accountable for its delivery.
- We selected VIU because it is a similar size to many other universities in British Columbia.

## Objective

To determine whether VIU's Board of Governors provided oversight of the university's cybersecurity risk management practices.

## Audit period

April 1, 2022, to March 31, 2023

## Conclusion

We concluded that VIU's Board of Governors has not provided oversight of the university's cybersecurity risk management practices.

VIU has accepted our four recommendations on updating policies, board training and development, and cybersecurity risk mitigation and responses.

## What we found

### The board established oversight roles and responsibilities, but policies are out of date

- VIU policies and terms of reference define cybersecurity risk management roles and responsibilities.
- The university hasn't updated its risk management policy and it's not in compliance with its own timeline for review.
- The board of governors approved the president's goals for managing cybersecurity risk and receives the president's assessment of management's progress.

### Recommendation 1

### Board training on how to oversee cybersecurity risk management isn't adequate

- An orientation program provided to all new board members includes general information about enterprise risk management, but not oversight responsibilities for cybersecurity risk management.
- The board of governors doesn't have an annual development (training) program which would provide updates on areas of significant risk, such as cybersecurity, or any changes to its role in providing oversight of cybersecurity risk management.

### Recommendations 2 and 3

## Audit at a glance *(continued)*

**A risk management framework was developed, but the board did not review the mitigation strategies until the end of the last fiscal year**

- The university has developed an enterprise risk management framework, including processes to identify and rank cybersecurity risks and provide mitigation strategies.
- Using this framework, the university has identified cybersecurity risk as a top priority.
- For most of the 2022/23 fiscal year, the board of governors had not reviewed management's evaluation and response to cybersecurity risks, including its compliance with legal and regulatory requirements.

### **Recommendation 4**

### **After reading the report, you may wish to ask the following questions of government:**

1. What are government's expectations regarding board oversight of cybersecurity risk management at post-secondary institutions?
2. What are post-secondary boards doing to ensure they effectively oversee cybersecurity risk management?
3. How are post-secondary boards evaluating whether cybersecurity risk is adequately managed?

## Why we did this audit

- The Vancouver Island University (VIU) Board of Governors, like other university boards, is responsible for overseeing cybersecurity risk management and holding management accountable for its delivery.

## Objective

To determine whether VIU's Board of Governors provided oversight of the university's cybersecurity risk management practices.

April 1, 2022, to March 31, 2023

## Conclusion

We concluded that VIU's Board of Governors has not provided oversight of the university's cybersecurity risk management practices.

VIU has accepted our four recommendations on updating policies, board training and development, and cybersecurity risk mitigation and responses.

## What we found

### The board established oversight roles and responsibilities, but policies are out of date

- VIU policies and terms of reference define cybersecurity risk management roles and responsibilities.
- The university hasn't updated its risk management policy and it's not in compliance with its own timeline for review.
- The board of governors approved the president's goals for managing cybersecurity risk and receives the president's assessment of management's progress.

### Recommendation 1

### Board training on how to oversee cybersecurity risk management isn't adequate

- The board of governors doesn't have an annual development (training) program which would provide updates on areas of significant risk, such as cybersecurity, or any changes to its role in providing oversight of cybersecurity risk management.

### Recommendations 2 and 3

## Audit at a glance *(continued)*

**A risk management framework was developed, but the board did not review the mitigation strategies until the end of the last fiscal year**

- The university has developed an enterprise risk management framework, including processes to identify and rank cybersecurity risks and provide mitigation strategies.
- Using this framework, the university has identified cybersecurity risk as a top priority.
- For most of the 2022/23 fiscal year, the board of governors had not reviewed management's evaluation and response to cybersecurity risks, including its compliance with legal and regulatory requirements.

### **Recommendation 4**

### **After reading the report, you may wish to ask the following questions of government:**

1. What are government's expectations regarding board oversight of cybersecurity risk management at post-secondary institutions?
2. What are post-secondary boards doing to ensure they effectively oversee cybersecurity risk management?
3. How are post-secondary boards evaluating whether cybersecurity risk is adequately managed?

# Background

Post-secondary institutions increasingly rely on information technology (IT) for their operations and to protect the sensitive information of faculty, staff and students. They depend on IT for educational programs, student registration, enrollment, assignments, and grading. Students expect technology-enabled learning and universities must be able to provide it securely and reliably.

Protecting IT from cyberattacks, ransomware and other threats is a critical business issue. Vancouver Island University (VIU) ranks cybersecurity among its highest risks.

Management at VIU is responsible for conducting risk assessments and implementing and operating processes to mitigate risk. It is expected to report the status of risk management programs to the board of governors, which oversees management activities.

VIU's board of governors is expected to oversee cybersecurity risk management by evaluating whether the institution:

- Has current cybersecurity policies and procedures.
- Regularly assesses and monitors cybersecurity risks.
- Receives regular reports on the institution's cybersecurity posture.

## What's ERM?

Enterprise risk management (including cybersecurity risk management) protects systems and data. ERM uses technology, processes, and practices to:

- Identify assets and threats.
- Determine the likelihood of threats materializing.
- Determine the potential impacts.
- Document current mitigation strategies.
- Identify and implement mitigation strategies to manage residual risk (risk that remains after measures are in place).
- Monitor risk and mitigation strategies.

The board of governors is a line of defence to protect the university and improve its response to cyber threats. For example, the board of governors can evaluate whether management has implemented strategies to mitigate risks to its technology infrastructure.

## Background

The Crown Agencies and Board Resourcing Office recruits candidates for government appointments to public boards, including university boards of governors. The office recommends candidates to cabinet for approval prior to their formal appointment by the lieutenant governor. Board members, other than the president, receive no remuneration for being on the board of governors.

The *University Act* defines the membership of a university's board of governors. VIU has a 15-person board of governors:

- Eight members appointed by government (including two nominees from the institution's alumni association).
- Two elected by faculty.
- Two elected by members of student societies.
- One elected by staff.
- University chancellor.
- University president.

# Objective

---

The audit objective was to determine whether Vancouver Island University's Board of Governors provided oversight of the university's cybersecurity risk management practices.

## Scope

We looked to determine if the board of governors provided oversight of the university's cybersecurity risk management practices, including:

- Defining roles and responsibilities for cybersecurity risk management.
- Training on oversight of cybersecurity risk management.
- Evaluating if a risk management framework and processes are in place and functioning.
- Evaluating if management assessed the university's legal and regulatory requirements regarding cybersecurity.

We audited the board of governors' oversight practices from April 1, 2022, to March 31, 2023.

This was not an audit of management's processes. We did not audit:

- The effectiveness of operational cybersecurity controls.
- Management's process for conducting risk assessments.

# Conclusion

Vancouver Island University's Board of Governors has defined roles and responsibilities for overseeing risk management. It sets expectations for management to improve their enterprise risk management, which includes cybersecurity.

However, we concluded they haven't provided oversight of the university's cybersecurity risk management practices because:

- The board doesn't have a development (training) program to increase their subject matter knowledge in areas of risk, including cybersecurity risk, to assist them in their oversight responsibilities.
- The current risk management policy hasn't been updated since it was last approved by the board of governors in 2012. During the audit period, the board of governors reviewed, but didn't approve, an updated risk management policy.
- For most of the last fiscal year, the board of governors had not reviewed cybersecurity risk mitigation strategies which include compliance with legal and regulatory requirements.

# Findings and recommendations

---

## Cybersecurity risk management roles and responsibilities

In cybersecurity risk management, the different roles and responsibilities of the board of governors and management need to be defined and documented. Clearly documented roles and responsibilities establish:

- Clarity and consistency of expectations to prevent misunderstandings, conflicts and other issues between management and the board of governors and among board members.
- Clear accountability for board members and university management to meet expectations.

## The board established oversight roles and responsibilities, but there is a gap

### What we looked for

We examined whether the board of governors:

- Documented roles and responsibilities for overseeing cybersecurity risk management through governance and risk management policies.
- Established and evaluated whether the president met the expectations for managing cybersecurity risk.

[Learn more about the audit criteria on page 19.](#)

### What we found

#### Policy

The board of governors has documented its responsibilities for overseeing cybersecurity risk management, but the risk management policy is out of date.

They have approved policies and terms of reference that define their responsibilities for overseeing cybersecurity risk management. However, the risk management policy is past its last review date and is not current.

The Risk Management Policy was last reviewed and approved in 2012 (a scheduled 2017 review didn't occur). The board reviewed an updated risk management policy in March 2023, but it wasn't approved because the board didn't have a quorum to vote. The board of governors plans to conduct the vote at a future meeting.

## Why this matters

Not reviewing and updating risk management policies in a timely manner can lead to outdated and ineffective policies, resulting in confusion in roles and responsibilities and weakened accountability.

## Recommendation

---

We recommend that the Vancouver Island University's Board of Governors:

1. Ensure that governance and policy documents defining roles and responsibilities for cybersecurity risk management are reviewed and approved as scheduled.

[See the response from the auditee on page 18.](#)

## Board of governors' expectations of the president

The board of governors set expectations and reviewed the progress of the president in meeting goals for managing cybersecurity risk. Quarterly, the president updated the board on progress toward her goals. The board of governors discussed the president's assessment at the quarterly board meetings. However, the feedback wasn't documented.

## Why this matters

Setting expectations and reviewing progress are important because the president is the person responsible for directing the university's management. Management is responsible for completing the cybersecurity risk assessment and it operates processes for defending the university against cybersecurity threats. Therefore, the board's ability to oversee the implementation of cybersecurity risk management requires the evaluation of the president's progress in meeting expectations.

## Training

An individual appointed or elected to the university board of governors brings diverse and valuable experience. They will generally have areas where additional training would improve their ability to provide oversight of the university, for example cybersecurity risk management.

An orientation program for new board members that covers the governor's responsibilities for providing oversight of cybersecurity risk management is essential for board members to understand their responsibilities. An annual development program that includes training updates on areas of significant risk is important for board members to stay up to date on the latest trends and provide effective oversight by making informed decisions.

### Board training on how to oversee cybersecurity risk management isn't adequate

#### What we looked for

VIU's governance policy states that the university should have an annual development program and orientation for board members. We looked to see if there is an orientation program for new board members that covers the board's responsibilities for oversight of cybersecurity risk management. We also examined whether the board of governors has an annual development program that includes training and updates on cybersecurity risk management.

[Learn more about the audit criteria on page 19.](#)

#### What we found

An orientation program provided to all new board members includes general information about enterprise risk management, but not oversight responsibilities for cybersecurity risk management.

The orientation program for new board members provides a general overview of the university and its structure. However, a section on roles and responsibilities doesn't cover cybersecurity risk management oversight. It mentions cybersecurity (as an item in enterprise risk management reporting) but doesn't provide guidance on how the board of governors should provide oversight.

The board of governors doesn't have an annual development program to update areas of significant risk, such as cybersecurity, or on any changes to the board's role in providing oversight of cybersecurity risk management.

## Findings and recommendations

The university's governance policy states the board must have an annual development program that includes updates on areas of significant risk, such as cybersecurity risk management.

Because the university lists cybersecurity as one of their most significant risks, we inquired if any of the board members have a background in information technology. The board members' self-assessments showed they lack backgrounds in this area.

## Why this matters

Board members need to have up-to-date knowledge of cybersecurity risk management to be effective in their oversight role.

Robust orientation and board development programs can help board members to be effective in their oversight and decision making.

## Recommendations

We recommend that the Vancouver Island University's Board of Governors:

2. Create an annual development program and ensure board members receive annual training on cybersecurity risk management to support them in their oversight role.
3. Update the board orientation program to include information on the roles and responsibilities for oversight of cybersecurity risk management.

## Cybersecurity risk management framework

An organization should have a documented cybersecurity risk management framework to evaluate risk in a structured way and provide:

- Clarity and consistency in assessing risk by providing clear procedures and guidelines.
- A way to identify risks by systematically assessing threat likelihood and impact.
- An approach to implementing appropriate measures to reduce the likelihood and impact of identified risks.
- A basis for continual improvement and identifying opportunities to enhance risk management practices.

The board of governors can provide oversight of the risk management framework by ensuring the framework and mitigation strategies are documented and communicated.

## The board reviewed the cybersecurity risk management framework and confirmed it was communicated to the university community

### What we looked for

We looked to see if the VIU Board of Governors reviewed the university's cybersecurity risk management framework and if they confirmed management communicated the risk management framework and policies to staff, students, and other key groups.

[Learn more about the audit criteria on page 19.](#)

### What we found

The board reviewed the cybersecurity risk management framework (a component of the enterprise risk management framework) and confirmed that the framework and policies were communicated to staff, students and other key groups.

Prior to fiscal year 2022, the board identified enterprise risk management as an area that needed improvement at VIU and the university created a staff position dedicated to the task. The university has now documented its risk management framework, which includes identifying and ranking risks and implementing mitigation measures.

In June 2022, the board of governors reviewed the enterprise risk management framework.

The board of governors has delegated communication of the risk management framework and policies to VIU management. They confirmed the risk management framework and policies were communicated to key parties by the university's management. The description of the integrated risk management framework and the policy documents relating to risk management are on the university's internal website.

## Why this matters

A documented risk management framework provides clarity and consistency for an organization's approach to risk management. By exercising its oversight, the board of governors helps ensure the risk management framework is documented and communicated, and that the university has processes to reduce unnecessary risk.

## Risk management processes

The board of governors' review of the university's cybersecurity risk assessment is important in fulfilling its responsibility to evaluate the university's cybersecurity management. The documented risk assessment and mitigation strategies help the board evaluate if the university is making informed decisions about cybersecurity investments and strategic priorities.

## For most of the fiscal year, the board had not reviewed cybersecurity risk mitigation strategies

### What we looked for

We examined if the board of governors regularly reviews the university's cybersecurity risk assessment and, if so, whether it looks at how management evaluates and mitigates cybersecurity risk, prioritizes risk areas, and documents its responses. We also looked to see if the board of governors confirmed that management had assessed its compliance with legal and regulatory requirements.

[Learn more about the audit criteria on page 19.](#)

### What we found

The board had not fulfilled its oversight responsibilities for confirming management had implemented mitigation strategies, including compliance with key requirements, until the end of the 2022/23 fiscal year.

The university has improved its risk management processes by hiring full-time staff to develop its enterprise risk management framework. VIU developed processes to identify and rank risks, including cybersecurity risks, and to provide mitigation strategies.

---

## Findings and recommendations

---

The board of governors reviewed the university's cybersecurity risk assessment to confirm management is evaluating and mitigating cybersecurity risk by prioritizing risk areas and documenting responses.

In June 2022, the board reviewed the framework VIU had implemented for identifying and rating risks. At that time, management placed cybersecurity risk as the third-highest risk to university operations. However, the risk assessment didn't include strategies for mitigating risk.

In March 2023, the board received a documented risk assessment from management that included mitigation strategies. The board of governors did not complete its oversight of the risk assessment process until March 30, 2023, when it reviewed the completed risk assessment that included the strategies to mitigate identified risks.

On that same date, the board of governors also confirmed management assessed the university's legal and regulatory requirements for cybersecurity risk management.

### Why this matters

Without documented risk mitigation strategies to review, the board can't fulfil its oversight responsibilities. It's unable to evaluate if management is adequately prepared to manage cybersecurity risks or if they are making informed decisions on investments and priorities, such as possible legal and regulatory requirements. The board has a responsibility to request management to provide this information throughout the year to help ensure an ongoing evaluation of management's response to cybersecurity risk.

### Recommendation

---

We recommend that the Vancouver Island University's Board of Governors:

4. Review cybersecurity risk mitigation strategies throughout the year.

See the response from the auditee on page 18.

# About the audit

---

We conducted this audit under the authority of section 11(8) of the *Auditor General Act* and in accordance with the Canadian Standard on Assurance Engagements (CSAE) 3001—Direct Engagements, set out by the Chartered Professional Accountants of Canada (CPA Canada) in the *CPA Canada Handbook – Assurance*. These standards require that we comply with ethical requirements and conduct the audit to independently express a conclusion against the objective of the audit.

A direct audit involves understanding the subject matter to identify areas of significance and risk, and to identify relevant controls. This understanding is used as the basis for designing and performing audit procedures to obtain evidence on which to base the audit conclusion.

The audit procedures we conducted included document review, inquiries with management, and corroboration and confirmation of evidence and findings with the board, primarily the board chair.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Our office applies the Canadian Standard on Quality Management (CSQM 1), and we have complied with the independence and other requirements of the code of ethics issued by the Chartered Professional Accountants of British Columbia that are relevant to this audit.

**DATE:** September 18, 2023  
**TOPIC:** Government Mandate Letter for 2023/2024

For Information:

For Decision: X

For Discussion:

**1. OVERVIEW**

Each year the Provincial Government gives Camosun College a mandate letter for the upcoming year. The letter confirms our institution's mandate under the College and Institute Act, and sets out key performance expectations for the upcoming fiscal year. The letter is based on a template for all public sector organizations and outlines Government priorities for the public post-secondary system. The results are incorporated into our annual Institutional Accountability Plan and Report.

The Government asked the board to show their support and approval of the letter with a motion. It will then be posted on Camosun's and the Government's websites. This is a requirement that demonstrates that Board members understand and acknowledge their commitment to the Government's direction. Please note that the second line that refers to 'Lasting and meaningful reconciliation' probably includes Indigenization.

Past letters can be viewed on the college's website under [Plans and Reports](#) in the box 'Plans'.

Public sector organizations—including Crowns, health authorities and post-secondary institution boards—support British Columbians by delivering vital public services and are accountable to the public through their responsible Minister. Your leadership in advancing and protecting the public interest strengthens trust in public institutions.

You are serving British Columbians at a time when people in our province continue to recover from and respond to the upheaval caused by the COVID-19 pandemic, an ongoing toxic drug crisis, climate-related natural disasters and while global inflation is driving up costs. Now more than ever, we need to focus on building a prosperous, low-carbon, sustainable economy, and a province where everyone can find a good home—in rural areas, in cities and in Indigenous communities.

This mandate letter, which I am sending in my capacity as Minister responsible for post-secondary institutions, sets out overarching principles relevant to the entire public sector and specific direction on priorities and expectations for your institution for the remainder of government's term.

Government and public sector organizations must continue to advance results that people can see and feel in these key areas: strengthened health care, safer communities, attainable and secure housing and a clean and fair economy that delivers affordability and prosperity.

In doing so, you will continue working towards lasting and meaningful Reconciliation by supporting opportunities for Indigenous Peoples to be full partners in the province we are building together and delivering on specific commitments as outlined in the *Declaration on the Rights of Indigenous Peoples Act* action plan.

As required by the *Climate Change Accountability Act*, please ensure your institution implements targets and strategies for minimizing greenhouse gas emissions and managing climate risk, including achieving carbon neutrality each year and aligning with the CleanBC target of a 50 per cent reduction in public sector building emissions and a 40 per cent reduction in public sector fleet emissions by 2030. Your institution is expected to work with government to report out on these plans and activities as required by legislation.

Our province's history, identity and strength are rooted in its diverse population. Yet racialized and marginalized people face historic and present-day barriers that limit their full participation in their communities, workplaces, government and their lives. The public sector has a moral and ethical responsibility to tackle systemic discrimination in all its forms—and every public sector organization has a role in this work. As part of this work, your organization is expected to adopt the Gender-Based Analysis Plus (GBA+) lens to ensure gender equity is reflected in your operations and programs.

British Columbians expect that public sector organizations operate in a responsible manner to deliver quality services equitably in all regions of the province. This requires strategic stewardship of planning, operations and policies in the areas of financial, risk and human resource management including information security and privacy protection.

The protection of government data and networks is a priority, especially where it concerns personal information of British Columbians. Public sector organizations must maintain up to date systems and effective cybersecurity practices, including maintaining current information management and cybersecurity policies, guidelines and standards; evaluating your organization against industry standards and maintaining appropriate security and privacy practices. The Office of the Chief Information Officer within the Ministry of Citizens' Services is available to support and offer guidance to your organization in any of these areas.

Public sector organizations must also implement and maintain an effective fraud risk management strategy. The Office of the Comptroller General and the Risk Management Branch in the Ministry of Finance are available for consultation.

The Crown Agencies Secretariat (CAS) in the Ministry of Finance supports public sector organizations to operate effectively, in the public interest and aligned with government's strategic direction and priorities. Within CAS, the Crown Agencies and Board Resourcing Office (CABRO) will continue to support you and your board on recruitment, appointments and professional development, as well as ensuring board composition and governance reflects the diversity of our province. CAS can support you in public sector governance best practices, policy and planning.

I expect you to ensure the important priorities and areas of focus listed in this letter are incorporated into the practices of your institution and develop plans to address the following new priorities within your approved budget and within the following context.

Post-secondary education and training are fundamental for anyone who wishes to access and succeed in most careers in our province. We know that 80 per cent of the 1 million new job openings in BC over the next decade will require post-secondary education and training. The StrongerBC Future Ready Action Plan aims to make education and training more accessible, affordable and relevant to prepare British Columbians for the jobs of tomorrow. Achieving the objectives of the Action Plan will require collaboration across many sectors, driven by the post-secondary sector.

I ask you to rise to the challenge and work across the post-secondary system, as well as with businesses, unions, tradespeople and community leaders, to build a province of opportunity and equity, where everyone can succeed and prosper by focusing on the following priorities:

- Delivering educational and training programming as described in the StrongerBC Future Ready Action Plan to equip British Columbians to capitalize on new opportunities and remain resilient in the face of unprecedented change, including the continued expansion of access to affordable, accessible and relevant training, such as through micro-credentials and expanded health seats.
- Working with SkilledTradesBC, Indigenous leadership and partners to ensure Indigenous voices are reflected in trades training decision-making that impacts Indigenous workers, businesses and communities.
- Continuing to provide culturally sensitive and safe learning environments for Indigenous learners to maximize their participation and success in post-secondary education.
- Developing and implementing protections for international students that support their fair treatment.
- Meeting or exceeding the financial targets identified in the Ministry's Service Plan tabled under Budget 2023.
- Complying with the Tuition Limit Policy, which sets a two percent cap on tuition and mandatory fee increases for domestic students to ensure programs are affordable.

The Ministry posts the annual reporting requirements for public post-secondary institutions on its website. This document outlines the statistical, financial and performance reports for the fiscal year. Your institution is expected to meet these requirements by providing the data and reports necessary for government to carry out its responsibilities.

As Board Chair, you are required, upon resolution of your board, to sign this letter to acknowledge this direction from government to your institution. The signed letter is to be posted publicly on your institution's website by September 21, 2023.

I look forward to continuing to work with you and your board colleagues to meet the high standards set for us by all British Columbians.

Sincerely,

Honourable Selina Robinson  
Minister
